

Shown above in the full upright position and right lowered all the way down.

The Ultimate HL boat lift is a fabricated heavy duty galvanized steel frame. This lift is designed for rough water applications offering maximum lifting capabilities along with the incorporation of double support tubes for stability.

The Dock Doctors unique design allows for support frames to “nest” inside of main frame, minimizing water depth needed.

Ultimate HL Boat Lift Standard Specifications (Custom sizes available)

| Model # | Capacity | # of Cylinders | Lifting Height | Overall Width | Overall Length | Bunk Lengths | List Price | 2009 Sale Price |
|---------|-------------|----------------|----------------|---------------|----------------|--------------|---|--------------------------------------|
| 14000 | 14,000 lbs. | 4 | 60" | 163" | 239" | 18' | <input type="checkbox"/> \$19,900.00 | <input type="checkbox"/> \$18,400.00 |
| 20000 | 20,000 lbs. | 6 | 60" | 163" | 263" | 20' | <input type="checkbox"/> \$25,900.00 | <input type="checkbox"/> \$23,900.00 |

Prices above include a 24 volt pump, AC charging unit, dock box and (4) 36" adjustable legs. Taller, adjustable support legs are also available as an option.

Options:

Adjustable guide-ons: Heavy duty vertical guides adjust to accommodate varying beam widths.

- (4) posts for 14K model **\$1,995.00**
- (6) posts for 20K model **\$2,995.00**

***Adjustable lifting height:** Support tubes to provide taller lifting range for up to 72."

- (4) posts for 14K model **\$1,395.00**
- (6) posts for 20K model **\$2,095.00**

*Note: Increasing the lift range decreases the weight capacity.
